

IRONKEY WORKSPACE W300

MOBILE DESKTOPS FOR A MOBILE WORKFORCE

Today's mobile workers — field personnel, consultants and teleworkers — need to be productive no matter where they go. They need a mobile computing environment that gives them access to corporate applications and data, without the burden or expense of lugging a laptop.

For many enterprises, that environment is Microsoft Windows to Go, a complete Windows 8.1 Enterprise workspace that can be booted from a USB flash drive or other storage device to run on any PC, regardless of operating system. With Windows to Go, you can:

- Provide your users with an imaged and fully functional version of Windows 8.1
- Distribute mobile work environments that mirror your corporate desktop
- Ensure employees, partners and contractors are using mobile workspaces created and managed by IT

A CERTIFIED PLATFORM FOR WINDOWS TO GO

When working with corporate data and applications, however, not just any drive will do. That's why Imation developed IronKey Workspace W300 — the solution certified by Microsoft for Windows To Go that delivers a true Windows 8.1 desktop embedded in a trusted IronKey USB flash drive.

IronKey Workspace W300 builds on IronKey's renowned leadership and expertise in providing complete mobile workspaces and hardened, reliable USB flash drives.

A COMPLETE WINDOWS 8.1 ENVIRONMENT

IronKey Workspace W300 boots directly from a USB flash drive and delivers a fast, full Windows desktop. Employees can easily telework from home, consultants can work in multiple locations, and field personnel can access their corporate desktop from virtually any PC.

WINDOWS TO GO CERTIFIED

Depend upon the Microsoft-certified Windows To Go solution that delivers a true Windows 8.1 desktop embedded on a trusted IronKey USB flash drive.

BENEFITS

Rely on IronKey's portable desktop expertise and the proven dependability of IronKey drives.

Deliver a fast, full Windows desktop that boots from USB and uses all host system resources.

Equip users to work anywhere using environments that mirror your corporate desktop.

Protect portable desktops with full disk encryption and password authentication leveraging Microsoft BitLocker technology.

Automatically protect data upon device removal.

Keep workers productive by deploying IronKey USB flash drives that deliver up to 5X the Windows to Go minimum average read/write performance.

Efficiently deploy across the enterprise with optional mass provisioning.

IRONKEY TOUGH

IronKey Workspace drives undergo thousands of hours of rigorous read/write tests to help ensure users are getting a USB flash drive they can count on. And because nobody knows mobile like IronKey, this go-anywhere solution is encased in a sturdy chassis that's resistant to water, dust and shocks to help protect the drive and its contents from the elements.

IRONKEY WORKSPACE W300

IRONKEY FAST

Equip mobile workers with a reliable IronKey Workspace W300 drive that delivers up to five times the minimum read/write performance requirements for Windows To Go devices. Users will get sequential read performance up to 400 MB/second and sequential write speed up to 316 MB/second.

PASSWORD PROTECTED AND ENCRYPTED

Control access to your company's mobile Windows to Go desktops with password protection capabilities and up to 256-bit AES full disk encryption leveraging Microsoft BitLocker technology. And with IronKey Workspace devices, data and applications automatically receive strong protection from breach and corruption the moment users remove flash drives from their host PCs.

EASY TO USE FOR MAXIMUM PRODUCTIVITY

The IronKey Workspace W300 experience delivers a fast, full Windows desktop with full use of the host system's hardware and resources such as printers and network connections. The Windows To Go environment's minimal, intuitive interface gets employees working in no time.

ENTERPRISE-CLASS MASS PROVISIONING

With IronKey's optional mass provisioning tool, you can quickly mount a large-scale deployment of mobile workspaces to keep up with the growth of your mobile workforce, or to prepare for potential "lights out" events that might disrupt operations.

A TRUE WORK-ANYWHERE SOLUTION

IronKey Workspace W300 is compatible with almost every system, so users don't have to waste valuable work time hunting down the right host PC.

THE FIRST DRIVE IN A NEW IRONKEY WORKSPACE FAMILY

Additional IronKey Workspace solutions include the IronKey Workspace W500 with a tamper-evident metal chassis and epoxy-sealed components, military grade hardware encryption and optional central administration via the on-premise IronKey Enterprise Management Server. Future IronKey Workspace solutions will include FIPS 140-2 Level 3 certification.

TECHNICAL SPECS

CAPACITIES

32GB, 64GB, 128GB

PERFORMANCE

Max Read: 400 MB/second

Max Write: 316 MB/second

HARDWARE

USB 3.0 SuperSpeed

WATERPROOF

MIL-STD-810F

TEMPERATURE

Operating: 0°C, +70°C

Storage: -40°C, +85°C

OPERATING SHOCK

16G RMS

SECURITY FEATURES

Password protection

128-bit or 256-bit AES full disk encryption

Automatic data protection from breach and corruption upon device removal

DIMENSIONS

81mm x 21mm x 9mm

WEIGHT

0.7 oz (20 grams)

REQUIREMENTS

Microsoft Windows 7 or 8 certified PC

Windows not included

Requires Windows 8.1 Enterprise Edition

WARRANTY

5 Years Limited
